Be Mobile
The battery BA001 makes your application mobile
Be inspired
Imagine a world without mains cables

Be mobile:
The powerful Battery BA001 opens up new possibilities
The LINAK® battery BA001 is a powerful rechargeable battery wrapped in a discreet design. It allows you to have it all: Mobility, flexibility, and comfort – without compromising on your design.

Create flexible office furniture solutions
Say goodbye to mains cables and design office furniture with portable power supply. Whether you need power for your height adjustable office desk, your trolley, your cart, or your adjustable video rack in the conference room – with our battery solution you are flexible to place and move your furniture.

Move at home
Create independent solutions for your furniture at home, such as a height adjustable kitchen or dinner tables. You can even create beds or recliners with electric adjustment.

“There are good reasons for using a battery instead of a mains cable. The battery is ideal for mobile adjustable applications, such as mobile carts or applications where a mains cable would be in the way, like recliners.”

- Stefan Lorenzen, Sales Engineer, LINAK

Battery technology to set you free

**ZERO™ power consumption**
With ZERO Technology the battery BA001 has a standby power consumption lower than 0.1W when not in use.

**Easy mounting, fast in operation**
Mount the bracket onto your application and simply click on the battery. When plugged into the application, you are in operation and mobile.

**Intuitive status indicator**
The BA001 features LED bars indicating the capacity level and the audio alarm beeps when it is time to recharge.

**Flexible charging**
When charging is needed, simply plug in a mains cable to the control box or click off the battery and recharge it via an external power supply.

* If any or all of the Li-ion batteries built into LINAK products are found to be defective under warranty, LINAK® will provide a new product to the OEM. LINAK explicitly disclaims all other remedies. LINAK shall not in any event be liable under any circumstances for any special indirect punitive incidental or consequential damages or losses arising from any incident related to the inherent risk of thermal runaway in the Li-ion cell and any use of LINAK products. Moreover, LINAK explicitly disclaims lost profits, failure to realise expected savings, any claim against our customer by a third party, or any other commercial or economic losses of any kind, even if LINAK has been advised of the possibility of such damages or losses.
