HOMELINE accessories set your bed apart with unique value-adding features. Features ensuring both differentiation and branding as well as comfort and value for the end-user.

For instance, by adding a small accessory you can use a mobile device such as a phone or a tablet as a hand control. To control a bed equipped with the TWINDRIVE® TD3 or the CBH Advanced you merely plug a Bluetooth® Adapter Bed into the product and download the Bed Control App.

Due to Plug & Play™, it is also easy to include light or massage to your bed design as well. It is possible to integrate the LED Lightbox or the LED Light Rail, which provide light under your bed, or the massage motor, which adds an element of luxury. Both require no additional control box or wiring.
