

Basic OpenBus™ system for hospital beds

Adjustable actuator solutions for modern healthcare

Upgrade your analogue actuator system - and enjoy multiple benefits with OpenBus™

LINAK introduces a new electric actuator system for various adjustable hospital and healthcare beds.

It is a new OpenBus™ system meant to break with the perception that digital intelligence is exclusive only to very advanced adjustment solutions.

The system setup consists of two new items: the control box CO41 and the attendant control panel ACOM. Combined with a number of LA40 linear actuators and the tried and tested handset HB70 enables manufacturers to offer many features and functions belonging to a modern actuator systems.

Add value to the bed with this new cost-effective OpenBus solution and get:

- Fixed memory positioning with one button touch (CPR, Trendelenburg)
- Increased safety by OpenBus™ communication
- Optional Under Bed Light (UBL)
- Optional customised software solution
- Optional battery or actuator status data

ACOM

- Individual lockout
- One-touch functions
- Detachable

HB70

- Robust
- Several standard front covers
- Customer logo as an option

CO41
