

A close-up photograph of a person's feet resting on a light-colored wooden floor. The feet are positioned in the lower right quadrant of the frame, with the toes pointing towards the bottom left. The skin is fair and appears smooth. The wooden floor has a visible grain pattern and a slight reflection. In the background, a soft, out-of-focus white object, possibly a pillow or blanket, is visible on the left side. The overall lighting is warm and soft, creating a comfortable and clean atmosphere.

LINAK® 
WE IMPROVE YOUR LIFE

Focus on low height beds for improved safety

Many hospitalised patients fall every year causing injury and increased length of hospitalisation. Also, the number of elderly people is increasing worldwide and if an elderly falls from a bed it can be fatal.

Beds can be constructed with an ability to be lowered almost to floor height. For the end-user this lowering function means prevention of accidents to hospital patients and elderly people.

So what can LINAK do for bed manufacturers?

- LINAK can supply products designed to lower beds to floor height in order to prevent falls and accidents
- LINAK can supply products which are approved according to EN60601-1
- LINAK can supply complete actuator systems to ensure optimised product collaboration and potential

- LINAK is a global company that can provide a world-wide network of after sales service

Advantages of using a low height bed:

- Ensures a safe resting height for residents who are prone to falling out of bed especially suitable for confused patients, patients with troubled sleep, and patients with senile dementia
- Hospitals and nursing care homes can minimise the number of accidents caused by patients falling out of bed - this can reduce the cost of increased hospitalisation due to injuries caused from falling out of bed
- As the bed can be raised to a normal height it can still give carers ergonomic working conditions

CARE
FOR
TOMORROW
TODAY™

The height optimiser

Safety is key in today's hospitals and nursing homes. Hence, LINAK makes it possible to practice routines that make it easy and comfortable to ensure a safe environment for the patients and the caregivers.

Often it is important for the staff to move the bed into lowest position close to the floor level – a "goodnight position" so that the patients do not hurt themselves if they fall out of bed accidentally.

LINAK provides the adequate system to ensure an easy way of realising this routine.

Floor beds

LA40

- Efficient - up to 8,000N
- High speed - up to 16 mm/s
- Colour: Light grey
- Easy to clean
- High performance
- Range of safety features available
- E Protection class: IPX6

CA40

- Connection of up to 4 actuators
- Extremely compact design
- Protection Class: IPX6 W
- Colour: Light grey
- Low weight
- Cable management
- Add-on accessories possible

BA21

- Li-Ion battery
- 2.2 Ah at 25V
- Output voltage: 25.9 V DC
- Weight: 0.7 kg
- Colour: Light grey
- Protection class: IPX6 Washable

BA19

- Lead acid battery
- Output voltage: 24 V DC
- Internal charger
- Capacity: 1.2 Ah/28.8 Wh
- Weight: 1.6 kg
- Colour: Light grey
- Protection class: IPX6 Washable
- Cable management

Hand controls for your floor bed

HB80

- Option of background lighting with OpenBus™
- Up to 12 buttons
- Customised front covers
- Hook
- Memory options

HB70

- Can control up to 5 actuators
- Up to 10 buttons
- Hook
- Customised front covers
- Memory options

HL80 and **HL70** give you the same features as HB80 and HB70 respectively. Also it is possible to lock some or all bed positions using a small key. This can prevent patients from ending up in positions that are bad for recovery.

Accessories for your floor bed

The accessories for floor beds we can offer are Mini Attendant Controls and Attendant Control Locks. These items can lock some or all of the functions of the bed. They are fitted to hospital and care beds for use where patient positioning must be carefully controlled by the carers / nursing staff.

GLOBAL PRESENCE

LINAK® has a well-developed sales and service organisation in Europe, Americas, Asia and Australia. Therefore, we can assist you and your customers locally, under the global sales concept idea:

Be global, act local
