

## Product introduction

# MJB2 - Modular Junction box

The MJB2 is a compact 2-port repeater designed for use together with analogue or OpenBus™ control boxes. It is optimised for use in systems where 1 extra port is needed for easy connection of a hand control, a foot switch or an accessory like the UBL. It is easy to integrate in a wide range of healthcare applications such as hospital beds, surgery tables, and treatment chairs.

### Compact design

Easy to integrate into application design

### Quick and easy mounting

via cable ties or screws

### Improves cable management

### IPX6 Washable DURA™

Ready for wash tunnels and high-pressure washdown

Compatible with the LINAK® OpenBus™ or analogue control boxes

Beds

Treatment chairs

Surgery chairs

The possibilities are endless
