Introduction

The modular junction box MJB5 Plus is designed for use together with OpenBus™ control boxes.

The MJB5 Plus makes it possible to connect multiple hand controls and attendant controls. It can even be used for charging or to connect the Under Bed Light and 3rd party products.

The compact design and in-line cable management makes it easy to integrate in a wide range of healthcare applications like hospital beds, surgery tables and treatment chairs.

The MJB5 Plus offers IPX6 Washable DURA™ and is the perfect match for the OpenBus control box platform. IPX6 Washable DURA helps prolong the lifetime and makes the system ready for wash tunnels and high-pressure wash down.

MJB5 Plus versions 506-010 and 506-020

The MJB5 Plus is a modular junction box with 3 different options, Under Bed Light (UBL) and two switch inputs, S1 and S2, which can be used for an external switch.

UBL

The MJB5 Plus with UBL is a simple solution to prevent fall accidents and make the patient feel safe. The UBL makes it easy to find the way back to the bed at night without disturbing other patients. The MJB5 Plus has an external LED cable (0964135) which is connected to Port 5.

The external LED cable makes it more flexible to use the UBL. It can be moved from side to side of the bed or can be placed at the foot of the bed.

External Switch (S1/S2)

It is possible for the customer to connect a switch directly to the MJB5 Plus. It can be used with a customised switch or control.

Standard functionality

UBL

The UBL LED can be switched on and off via the patient control (Key1) or the attendant control (Key2).

External Switch (S1/S2)

The external switch is connected to S1: Pin 2 & 8/S2: Pin 2 and 9 on Port 2, Port 4 or Port 5.

The switch input functionality can be enabled/disabled via the attendant control. The enable/disable status (switch status) is indicated on the OpenBus.

The switch input functionality is as standard to be used with a NO switch. When the switch is activated (NC), a notification is sent on the OpenBus (switch notification).
