

# Hand Control Wireless HC20 Data sheet

# HC20 Wireless

---

The Hand Control HC20 wireless is designed for control of leisure beds with TWINDRIVE® systems.

It has a contemporary design that matches the trend within interior design. The HC20 combines ergonomic design and functionality into a user-friendly hand control without any annoying cable. As standard the HC20 offers memory of favourite positions, backlight in the buttons for extra user-friendliness and torch function.

Gives you the option to control up to 4 channels or e.g. the massage function in the bed system.

---

## Features:

- Hand control controlling 4 channels

**Simultaneous drive**

With this hand control it is possible to run the motors up/down simultaneously. If the system has more than two motors, they will run sequentially as maximum two motors can run at a time. The simultaneous drive can be configured to run either two motors or one motor at a time and also the order in which the motors run can be configured.

**Dimensions drawings:**

**Ordering example:**

\*Massage only in combination with 2 channels

**Note:**

- For logo versions, the minimum order is 68 pieces
- For special items, the orders are always made in multiples of 68 pieces
- The batteries are not included and must be ordered separately. The article number for batteries is: 0063018

**Terms of use**

The user is responsible for determining the suitability of LINAK products for specific application. LINAK takes great care in providing accurate and up-to-date information on its products.
