LINAK® INFORMATION ABOUT REACH COMPLIANCE

To **LINAK** customers

LINAK supports the objectives of REACH (**R**egistration, **E**valuation, and **A**uthorisation of **C**hemicals no. 1907/2006), and is aware of the obligations associated to a company to comply with the directive including informing our customers whenever substances from the candidate list is found in our products.

With regard to the requirements of Article 33/candidate list of REACH “Duty to communicate information on substances in articles”, **LINAK** is constantly monitoring the SVHCs (Candidate List of substances of very high concern for Authorisation currently released by ECHA) in our products, and **LINAK** has an ongoing process of gathering declarations to ensure that none of the substances are present in our products with a concentration equal to or above 0.1%.

The current ECHA candidate listing can be found on: <http://echa.europa.eu/candidate-list-table>

All products made by **LINAK** comply with the Regulations of Substances of Very High Concern (SVHC), (EC) 1907/2006, (SVHC<0,1%), except from lead. Currently, in **LINAK** products, this substance is to be found in a concentration above 0.1% (w/w) in steel alloys, brass, aluminium, and electronic components. Where reasonably technically possible, **LINAK** aims to substitute lead in our products.

LINAK will make all reasonable efforts to ensure appropriate and timely handling of updates in the REACH directive. Responsibilities and appropriate resources have been allocated to enable us to comply, for which reason **LINAK** has set up a procedure to handle and ensure REACH compliance. As a part of this procedure, **LINAK** uses a third-party compliance database to gather information regarding REACH. The declarations are provided by the suppliers, and the suppliers are required to update their declarations every 6 months.

The information contained herein is based on REACH declarations from our sub-suppliers and is to the best of our knowledge accurate and reliable as of the date of publication. However, **LINAK** does not assume any liability for the accuracy and completeness of such information.

Best regards
